

SOFTWARE BASED METHOD FOR SIMULTANEOUSLY ASSOCIATING MULTIPLE, ORDERED COLLECTIONS OF PAGES WITH MULTIPLE IMPOSITIONS

Abstract of the Disclosure

5 A document's reader order list of pages represented in an imposition
description file are decoupled from any single imposition. The decoupling
mechanism is a software object called a pageset having positions associated with the
pages of the document. A pageset may be associated with more than one imposition
plan; more than one pageset may be associated with a single imposition plan; or more
10 than one pageset can be associated with more than one imposition plan.
